

# Golding 107 *(TEC classroom – level B)*

Access code: none current

*107 utilizes a ceiling-mounted projector, focused on a wall-mounted screen.*

## Displaying PC or video sources

1. Use the black, System Controller on top of the Instructor Station. Push DOWN on the cover to access the pop-up controls. The station rolls about 5' in the instructor area! *Roll back when done!*
2. Press the **PROJ ON** button. Projector will take 45 seconds to warm up. **No controls will function during warm up.** The most recent input will be displayed in the screen's corner.
3. **After the warm up period, you MUST select your preferred input using the appropriate buttons. (Buttons illuminate when active.)** There is a brief lock out period after input selection, when you cannot jump to another source. **Just re-select your source after a few seconds.**
  - **PC/LAPTOP** will display the **PC**, installed inside the station. *(There is a convenience USB jack – front left PC)*
  - **Laptop** connections are provided via a VGA cable with an attached audio connector, accessed thru the pop-up control station. The system will **auto-detect**, and switch to your laptop when properly connected. A power plug is available in the pop-up controller.
  - **DISPLAY RESOLUTIONS:** the data projector can display most resolutions, though **we recommend 1280x1024 (SXGA) for best results.**
  - **BEST PRACTICE TIP:** before powering on or opening up your laptop, connect the laptop cable and select the **LAPTOP** input on the control panel. At this point, power on and open up your laptop. **MAC users must provide their own MAC adapter.** \*Refer to our "laptop display tips" for more info.\*
  - **DVD/S-VIDEO** selects the DVD player, stored inside the Instructor Station. This door is not locked currently. An **audio CD** can also be played through the DVD player, but additionally, it can be played through the computer's dvd drive.
  - **VHS/VIDEO playback is no longer available in 107.** Contact MTS (6-4632) for external support equipment.
4. The **AUTO IMAGE** button will let you adjust the projector to attempt proper sync with your laptop.
5. The **AV MUTE** button blacks out video and audio. Press it again to return to your presentation.

## Audio Controls

- Press the **AUDIO ^** and **AUDIO v** buttons to control your levels.
2. The **AUDIO MUTE** button will mute all sound levels. Just press it again to regain sound.

## \*\*Room Lighting\*\*

Lighting switches are located on the side wall as you enter the classroom. The front row of lights can be turned off to improve viewing.

## When Finished

1. Press the **OFF** button at the control panel. **Be sure the projector shuts off to save energy and save lamp life!**
2. Return or neaten up cables / remotes to help maintain facilities.
