

# Heller Brown 163 *(TEC classroom – level B)*

NO access code needed.

*This room utilizes an electric, ceiling mounted screen. Controls are on the wall.  
\*\*\* Please be sure the screen switch is in the OFF position when done. \*\*\**

## Displaying video sources

1. Use the black, System Controller on top of the Instructor Station. Push DOWN on the cover to access the pop-up controls. The station rolls about 3' in the instructor area! *Roll back when done!*
2. Press the **PROJ ON** button. Projector will take 45 seconds to warm up. **No controls will function during warm up.**
3. The current input will be displayed in the corner of the screen.
4. After the warm up period, select your preferred input using the appropriate buttons. **(Buttons illuminate when active.) There is a seven (7) second lock out period after input selection, when you cannot jump to another source. Just re-select your source after the 7 seconds.**
  - **PC/LAPTOP** will display the PC, installed inside the station. *There is a courtesy, front USB jack on the PC.*
  - Laptop connections are provided via a VGA cable with an attached audio cable, accessed thru the pop-up controller. The system will **auto-detect**, and switch to a laptop when properly connected. A power plug is available in the control station.
  - **DVD/S-VIDEO** selects the DVD player, stored inside the Instructor Station. No access locks at this time.
  - **VHS/VIDEO** selects the VHS player in the same location. You may operate the video devices using controls on each unit, or with provided remotes. Point the remote at the front wall-mounted IR eye.
  - External video/audio sources may be presented (*such as a camcorder*). Simply plug into one of the inputs, under the control buttons. System will **auto-detect** & display.
5. **PC LOGON:** **\*\*Use your UNET name and password, in the USERS domain. \*\***
6. **Laptops with wireless cards may be logged on using your UNET name and password, or as a guest account, using a personal email address. Opening a browser directs you to the log on process.**
7. The **AUTOIMAGE** button will let you adjust the projector to attempt proper sync with your laptop. We recommend XGA resolution (1024x768) for best results.
8. The **AV MUTE** button blacks out video and audio. Hit it again to return to your presentation.

## Audio Controls

1. Simply hit the **AUDIO up** and **AUDIO down** buttons to control your levels.
2. The **AUDIO MUTE** button will mute all sound levels. Just hit it again to regain sound.

## Playing Audio CD's

*Audio CDs can be played through the DVD player.*

1. Insert your CD into the DVD player.
2. Press the **DVD/S-VIDEO** button.
3. *An audio CD may also be played thru the PC's DVD drive.*

## When Finished

1. Press the **PROJ OFF** button. Be sure the projector begins to power off with its 90 second cool down process. **It is important to shut off the projector to save lamp life!**
2. Close the pop-up controller.
3. Return any remote controls to the station.
