

# Evaluating Hannon Hill CascadeServer and Serena Collage

WTS and functional evaluation team  
February-March 2006

# Overview

- Purpose: hands-on experience to inform your final evaluations
- Scheduling sessions
- What you'll be doing
- Survey

# What you'll be doing

- In sessions: a “Contributor-plus” role
  - Creating links and publishing pages \*
  - Working with lists and tables
    - Workflow approval and rollback
  - Working with images
  - Posting a file and creating a link to it
- Optional (outside of sessions): test other roles in consultation with WTS
  - E.g., Approver/Publisher and Manager

\* Publishing pages normally not a Contributor task

# Survey

- For each role you test, evaluate:
  - Functionality
  - Ease of use
- 3 best, 3 worst things about CMS
- Your overall recommendation and why

# Next steps

- As soon as possible, accept one calendar event in each of the next two weeks.
- At session, we'll give you a task script and ask you to fill out a survey at the end.

Thank you!
